## Software Platforms [\(Kodak Software Portfolio: kodak.com/go/disoftware\)](http://kodak.com/go/disoftware)

## Support

### [Do more with Kodak](#)

- Kodak enables customers to capture and use valuable information from electronic and paper documents
- Our document imaging solutions include award-winning scanners and capture software, an expanding range of professional services and industry-leading service and support
- From small offices to global operations, Kodak has the right solution to feed your business the information it needs
- Move information from documents to desktops with a total document capture solution from Kodak

**Kodak**  
Info Activate Solution

### [Kodak Info Activate Solution](#)

- Whether you use Microsoft SharePoint or another collaboration platform, chances are that getting critical data into your business process workflow remains extremely challenging. That's where Kodak Info Activate Solution comes in.
- Kodak Info Activate Solution features a radically simple user interface that allows knowledge workers to digitize information and initiate a business process with a single click.
- Business owners will appreciate the improved efficiency of transactions and business processes.
- And IT administrators can control the consistency and accuracy of critical business data.
- Streamline your workflow by efficiently capturing and organizing your information.

**Kodak**  
Capture Pro Software

### [Kodak Capture Pro Software](#)

- Ideal for ad hoc to advanced batch capture, serving wide range of applications from departmental to production
- Supports Kodak scanners & those from most other vendors ([over 200 scanners supported](#))
- Network Edition provides centralized licensing and administration of capture and indexing stations to feed a repository or business process
- Auto Import Edition supports MFPs and specialty scanners
- Easily connects w/ dozens of downstream systems including Microsoft SharePoint (including metadata), EMC Documentum and many more

[Kodak Capture Pro Software Demo videos](#)  
[Kodak Capture Pro Software APIs, Advanced Functions, Button Configurations & Shortcut videos](#)

**Kodak**  
Asset Management Software

### [Kodak Asset Management Software](#)

- Know more and do more by remotely managing Kodak Scanners.
- System administrators can manage and maintain select Kodak Scanners on their network through one simple thin-client dashboard solution
- Kodak Asset Management Software will optimize time, budgets, resources and efficiency. You'll know more about every scanner and be able to do more across your network, thanks to Kodak Asset Management Software

### [Kodak Document Viewer Software](#)

- Accelerate how you find and view documents in Microsoft SharePoint with Kodak Document Viewer Software. This easy, practical solution offers full screen and thumbnail views and integrates with all libraries, SharePoint lists, and search results.
- Kodak Document Viewer Software displays documents via HTML – directly in SharePoint, without the native application - eliminating hours and costs previously spent converting and storing files in alternate formats. Plus, only the portion of a document being viewed is downloaded to the desktop. Now you can access large documents faster, while protecting your network's bandwidth.

### [Kodak Scan and View Software](#)

- All-in-one scanning, viewing and editing solution built directly into the Microsoft SharePoint interface. Makes collaboration simple and allows users to add paper documents to SharePoint through their browsers. Easy to use tools enable you to view scanned documents.

### [Kodak Capture Desktop Software](#)

- Ideal for essential batch capture with out-of-the-box productivity (supports scanner button)
- Based on Capture Pro Software and allows for one index field, output to email, file, printer, or Microsoft SharePoint

### [Smart Touch functionality](#)

Ideal for ad hoc document capture and output to a file, email, printer or [Microsoft SharePoint](#)

- Bundled with select Kodak Scanners
- Output documents in a variety of file formats
- Easily configure locations, then scan with one touch

## **Kodak** Service & Support

Kodak Service & Support is one of the largest, most experienced service organizations in the industry.

Kodak Service & Support enables businesses to maximize technology investments by protecting and extending their lifespan through reliable products, comprehensive service and support through "one-call-does-it-all" capabilities to give customers a single source for all of their service needs on a global basis.

Through a network of service professionals in more than 120 countries, Kodak provides technical, professional, consulting and managed services to enable customers to focus on growing their businesses, maximizing productivity, and more effectively managing risks.

Kodak and its partners offer Professional Services that provide business owners and IT administrators with initial training and ongoing technical and business support for Kodak's software solutions.

Startup Assistance provides installation support, system integration, job setup/configuration, and training services to help organizations accelerate the first step into information management productivity.

Software Assurance extends the collaborative experience with periodic software updates and version upgrades as well as access to expertise that maximizes the software investment.

Kodak also offers workflow analysis and other Professional Services that align the solutions to the ever-changing needs of the business.
