

Smarter scanning productivity starts here!

Streamlined image processing, automatically

Some scanners require you to purchase and install software to process images post-scan to access features like deskew, rotate, crop, delete blank pages, save as PDF, etc. You're paying more, and you're adding steps and time to your scanning process. With Kodak, our scanners come equipped with the right software and tools you need to make scanning easy, high quality and complete. **Kodak** Scanners deliver the ultimate in simplicity and functionality.

Perfect Page Scanning

Perfect Page is the foundation of all **Kodak** iSeries Scanners. It's automatically installed with your scanner software. Perfect Page enables easy setup and configuration of all image processing settings, so you can output exceptional images, even from the most difficult and challenging documents.

VirtualReScan Software from Kofax (VRS)

When your application requires **VirtualReScan (VRS)** Software technology, selected **Kodak** Scanners come with **VRS** (or it's integrated into the hardware of the scanner). This means you get image enhancement features and error resolution tools — including more precise image cropping and advanced color management — to improve image quality on documents scanned in color, without sacrificing speed.

Smart Touch Functionality

With the touch of a button you can scan and file documents, send e-mails or start up other applications for your documents. With up to nine different settings, you can organize your documents by type or destination. Simplify complex tasks and make them "one-button easy." Create PDFs, **Microsoft Word** Documents, TIFF or JPEG images. All this powerful software is built right into the scanner.

Kodak Capture Desktop Software

Kodak Capture Desktop Software is an intuitive and easy-to-use capture software application, specifically designed to make processing and sharing scanned documents simple. With **Kodak** Capture Desktop Software, you'll benefit from "out of the box" productivity and have the immediate ability to capture, edit and output anything from single documents to larger batches in distributed or departmental environments.

Kodak Capture Pro Software Productivity

A batch-capture software that quickly converts forms, invoices, records and other critical business documents to high-quality images. Efficiently captures critical index data, then automatically delivers it to databases and applications.

- Support for over 150 scanner models from all leading vendors
- Designed for productivity with many automated functions
- Advanced indexing with up to 999 index fields
- Batch explorer and thumbnail view on GUI
- Barcode support and zonal OCR/MICR support
- Ability to customize the software using our Application Programming Interfaces (APIs)
- Connectivity with dozens of document management and Content Management Systems
- Single-touch shortcuts; assign shortcuts/scanner buttons to your common jobs
- Scan to multiple file types and output to multiple locations including e-mail/printer/**Microsoft SharePoint**
- Edit images after scanning (rotate, crop, rescan, insert image)
- Automated document separation using blank sheets of paper
- Drag-and-drop OCR
- Page setups for easy configuration of commonly used features
- Single field indexing (manual or drag-and-drop OCR)

Scan to Microsoft SharePoint and Improve Your Experience

The entire recent **Kodak** Scanner portfolio can scan to **SharePoint** via software solutions. You can output directly to **SharePoint** with **Kodak** Capture Pro or Capture Desktop Software.

Kodak Document Viewer Software speeds up finding and viewing documents in **SharePoint**, delivering full-screen and thumbnail views while integrating with all libraries, lists and search results. **Kodak** Scan and View Software makes **SharePoint** collaboration easy, lets you add paper documents to libraries through your browser, and gives you fast views of scanned documents.

World-class Kodak Service & Support

Protect your investments, assure ongoing productivity and gain peace of mind with world-class service from Kodak.
